THE UNK WEED! EMEDY —OR— OREGON RHEUMATIC CURE.

HISTORY.

This Remedy is composed of the active principle of the Unk Weed—Eng. Thaspium Cordatum Origlnis. Lat.—Indigenous to Oregon. Grows most abundantly and perfectly in Washington Co

PROPERTIES, ETC.

It contains an **ACTIVE VOLATILE** Principle, extracted by Ether, and a bitter **TONIC** Principle soluble in Alcohol.

MEDICAL PROPERTIES AND USES.

It is the most sure and speedy cure for

Rheumatism, Rheumatic Gout and Rheumatic Pains of all kinds

That was ever introduced in the Materia Medica. The **UNK WEED REMEDY**, as prepared by us, in consequence of the existing bitter principle, possesses the necessary virtue of being a

Powerful Tonic.

Promoting the Appetite and Invigorating the whole Digestive Apparatus, thu building up and strengthening the sys'em, while at the same time the volatile principle being absorbed in the blood, acts specifically on the Rheumatic Poison, removing it from the circulation and system

There are a few remedies known to the Medical Profession which will remove the Rheumatic Poison from the blood, but whose action is so powerful in depressing the system of the already enfeebled rheumatic patient, that their use has to be abandoned before specific effects are obtainable, hence the want of success in treating this prevalent and in consequence heretofore incurable disease

Unlike these Medicines, already known, the **UNK WEED REMEDY**, though producing as powerful and as active effects on the blood and system in removing the Rheumatic Poison, also possesses a strong TONIC and recuperating element which admits of its continued use even by the most delicate and debilitated. Thus we have the combination for the first time of these two necessary elements in one remedy, which accounts for its superior and never failing curative effects in

Rheumatism, Rheumatic Gout and Rheumatic Pains of all kinds,

HALL'S VEGETABLE SICILIAN HAIR RENEWER.

ITS EFFECT IS
MIRACULOUS.

IT IS A PERFECT AND WONDERFUL article. Cures baldness. Makes hair grow. A better dressing than any 'oil or pomatum.' Softens brash dry and wiry hair into Beautiful Silken Tresses. But, above all, the great wonder is the rapidity with which it restore GRAY HAIR TO ITS ORIGINAL COLOR.

The whitest and worst looking hair resumes its youthful beauty by its use. It does not dye the hair, but strikes at the root and fills it with new life and coloring matter.

The first application will do good; you will see the NATURAL COLOR returning every day, and

BEFORE YOU KNOW IT,

the old, gray, discolored appearance of the hair will be gone, giving place to lusturous, shining and beautiful locks

Ask for Hall's Sicilian Hair Renewer; no other article is at all like it in effect.

See that each bottle has our private Government Stamp over the top of the bottle. All others are imitations.

Ayer's Sarsaparilla,
FOR PURIFYING THE BLOOD

A MEDICINE THAT cures is a real public blessing, AYER'S SARSAPARILLA makes positive cure of a series of complaints which are always afflicting and too often fatal. It purifies the blood, purges out the lurking humours in the system, which undermine the health and settle into troublesome disorders. Eruptions of the skin are the appearance on the surface of humours that should be expelled from the blood. Internal derangements are the determination of these same humours to some internal organ or organs whose action they derange and whose substance they disease and destroy. AYER'S SARSAPARILLA expels these humours from the blood. When they are gone the disorders they produce disappear such as Ulcerations of the Liver, Stomach, Kidneys, Lungs, Eruptions and Eruptive Diseases of the skin, St Anthony's Fire, Rose or Erysipelas, Pimples, Pustules, Blotches, Boils, Tumours, Tetter and Salt Rheum, Scald Head, Ringworm, Ulcers and Sores, Rheumatism, Neuralgia, Pain in the Bones, Side and Head, Female Weakness, Sterility, Leucorrhea arising from internal ulceration and uterine diseases, Dropsy, Dyspepsia, Emaciation and General Debility. With their departure health returns.

Is it Peace?

The Treaty of Washington has had a great 'run.' Ten thousand journalists have heralded in it the dawn of a new era in which nations shall no longer study war. Publicists have seen in it the germ of a new power greater than the needle-gun or the mitrailleuse. Evangelists have discovered in it the sure percursor of that universal reign of peace in the which men will turn implements of war into those of husbandry and exchange the professoin of arms for avocations of peace. Pious Britain received it with a shout of 'Glory to God in the highest. On earth peace; good will to men.' Dr Cumming doubtless ventured a fresh prediction upon the strength of it. Good natured, honest, trusting John Bull went into extasies of holy rapture over it! Ever ready to judge others by himself, he thought he discovered the angel in his 'prodigal son,' and he was only too glad to receive him with open arms. The news coming from Geneva is but too well calculated to raise the disagreeable suspicion that the boy was not actuated by the same honest spirit as the father. At anyrate, the old man is as furious now as he was joyous then, and the whole thing threatens to end in a jolly row. It appears that the claims put in by the lad are as outragous as they are audacious. These claims are divided into five heads:

1, The claims for direct losses growing out of the destruction of vessels and their cargoes by the insurgent cruisers. 2, The national expenditures in the pursuit of those cruisers. 3, the loss in the transfer of the American commercial marine to the British flag. 4, The enhanced payments of insurance. 5, The prolongation of the war and the addition of a large sum to the cost of the war and the suppression of the rebellion. Under these several heads direct and indirect damages are claimed. Take, for instance, the fifth head. It is claimed that not only has the nation a right to be reimbursed in the entire cost of the war during the two years it is alleged to have been prolonged by the acts and neglects of Great Britan, but it is further claimed that there must be full compensation for all private and individual losses arising out of that two years' fighting, and then private losses are divided into two classes,—direct and remote, ascertained and speculative. The reader will at once see that the ground taken before the Geneva Court of Arbitration, is much the same as that taken by Sumner in his great speech against the Reverdy Johnson treaty,—only 'a little more so.' It has been said that the ground thus laid down is broad enough to produce a sum greater than the whole price of peace paid by France. Nor does that seem to be an exaggeration. The Court is asked to decree against Great Britain not only for the loss of vessels actually captured and for their cargoes, but for the injury done to their crews in the loss of wages, injury to health &c, &c. Not only are the ordinary expenses of the two years' war claimed; but full compensation is demanded far the loss to the nation by these years not being years of peace and reproductive industry. Not only is the state to be paid for every subject it lost during these two years, but the immense loss to individuals and families by their relatives and supporters being killed or maimed must all be made good and even the fortunes which these persons might, in all human probability, have accumulated, had they been spared to their relatives, will be urged as a basis for compensation. Does not it occur to the reader that Jonathan is playing a game of 'bluff.' It cannot be expected that such claims as these will be admitted. And, even if they were, the youngest member of the Court could not hope to live to see the end of it. The Court has two modes of procedure open to it,—to award a lump sum (if any), or to investigate every case and every item. Jonathan exhibits an unmistakable desire that the former course should be the one adopted, and he may be attempting to 'bluff' the Court as well as the respondent into adopting it. It remains to be seen how far the game will succeed. John Bull will be none the worse for showing his teeth meanwhile. Some people had begun to think he has no teeth now. The telegraph informs us that repudiation and withdrawal are threatened, and that the fate of the Reverdy Johnson treaty is to be the precedent for such a course. It is difficult to see how that can well be done now. The Reverdy Johnson treaty was never ratified by the two contracting parties. The Washington treaty was. If, however, the outrageous claims adverted to should be pressed, and if John Bull should see his way clear to adopt that course, there would appear to be no reason to doubt that he would have the moral support of the world. And with the Treaty of Washington would forever end all pretense to claim for compensation on the part of one who had twice defeated an honest and honorable attempt at adjustment. There can be no question that the failure of this the first [illegible] attempt to establish a peaceful mode for the adjustment of international differences would occasion universal regret; and, looking at the matter from a British point of view, we should be glad to see established on a solid and enduring basis a good understanding and friendly relations between the parent stem and the great branch of the Anglo-Saxon family. As subjects of the new Dominion of Canada, we have a still more direct interest in the result. But no true Briton would purchase peace at the sacrifice of honor and justice. The old flag must not be trailed in the dirt. Rather than that let the Treaty of Washington be severed by the sword. We are very reluctant, however, to believe such an unhappy issue possible. We prefer to expect that the treaty will yet meet the highest expectations of its most enthusiastic friends, and that the audacious pretensions of one of the parties thereto will yield before the wholesome pressure of public opinion and a warning growl from the British Lion.

Additional Family Names Indispensable.

Surely we shall be getting into endless confusion and trouble in the future, with the increased numbers of Adam and Eve's family, if some new and additional names are not dealt out to distinguish more distinctly one man from another. Imagine the anxiety that must beset every father and mother of the Smith family, on the occasion of another young Smith being brought into the world, to find a suitable prefix to distinguish this young Smith from all the other Smiths.

The editor of the Standard, of Victoria, whose former name was William Smith, driven to despair by mistakes ever occurring, applied to the Legislature of California to have his name changed to Amor DeCosmos. We cannot say we admire such eccentric adoptions as that involved in this change, but we say something must be done to meet the requirements. Even the Browns, Joneses and Robinsons are by no means safe. The worthy editor rejoicing in the name of Brown, in order to individulize himself, has had to resort to the appellation of 'Beriah,' and is known to the world as Beriah Brown.

As to the origin of surnames, and the meaning of particular appellations being given, we have never heard of any satisfactory solution. Surely there must at one time have been an unusual amount of smithery done, if the appellation of Smith denotes original occupation, unless we come to the other conclusion, that the Smiths have been unusally prolific. One thing is certain, if the names were originally given to designate peculiarities of the individual they have since lost their original significance, as we often find Mr Long to be a very short man, Mr Short to be long, Mr Black a fair man, and Mr Green not at all verdant.

To protect the Smiths, Browns and Robinsons in the future, something must be done; and to use the language of Shakespeare: 'If when 'twere done, 'twere well done, 'twere well 'twere done quickly.'—Pacific Tribune.

Married on Board.—A young couple took passage at one of the up-Sound ports on the North Pacific and came onto Port Townsend. There they announced that each was suffering from an affection of the heart which none save a J. P. could cure. The Port Townsend Justice came on board and prescribed the marriage ceremony. The patients consented to take the prescription and while it was being administered the steamer started for Victoria The Justice left his task half-performed and rushed for the wharf. The persuasions of the passengers (which were applied to the coat-tails of the flying official) restored him to a sense of his duty and he went back and finished the job. The cure proved effectual and Capt Starr obligingly backed down to the wharf and set the Justice ashore. The happy pair came on to Victoria for the honeymoon.

Sandwich Islands.—The eleventh day of June has been made a public holiday, in memory of Kamehameha I. A storm of unusual severity, from December 19th to 21st, did considerable damage on the lee side of Hiwaii, from Capu to Kauna. At Honomalina three houses were blown down, at Kukaiopae one house, and at Pahoehoe two houses. Trees were uprooted in numbers, the Rev Mr Paris' estate suffering particularly in that respect, and banana and shubbery prostrated throughout the district. At about the same dates (from 19th to 21st) the gale was very severe on Kauai, causing serious damage, both from the wind and freshets in the rivers. Houses were blown down or badly injured, some carried away by the floods, crops destroyed and trees uprooted.

The annual statement of the foreign trade of Great Britain has just been issued for 1870, but only the grand totals have reached us. The total value of imports from foreign countries was £238 425 080, and from the colonies £64 832 413, aggregating a value of £303.257.493, against £295 460.214 in 1869. The exports during the year 1870 were of British produce and manufacture to the value of £199 586 822, and of foreign and colonial produce £44 493.755, an aggregate of £244.080.577, against £237 015 052 in 1859.

Christ Church.—Mr Teideman, architect notifies that sealed tenders will be received by him until the 24th inst for the erection of Christ Church in accordance with the plans prepared by him, and of which an outline was given in these columns a few weeks ago. The edifice will cost, we believe, from $12,000 to $15,000, and will be gothic in form with a "rustic" finish outside.

Panther Killed.—Mr Charles Goor, who lives at the head of the Lagoon, Esquimalt, treed a big panther on Sunday night, and sent a bullet into him. The 'varmint' dropped to the ground, when the hunter gave him the contents of another barrel, which proved a *coup de grace*. The head was brought in yesterday and the usual bounty claimed.

Death of an Editor.—B F Washington, editor of the San Francisco *Examiner*, died on the 22d ult. He was the leading Democratic editor of California, and was a descendant of the great George Washington family.

The steamer Enterprise will sail at 9 o'clock on Tuesday morning for New Westminster.

There were six inches of snow at Bellingham Bay on Saturday last.

Princess Victoria, wife of the Prince Imperial of Prussia, is *enciente*.

Rev. W. H. Hill, Grand Master of Odd Fellows of California Jurisdiction, arrived last evening by the mail steamer from San Francisco. He was received at Esquimalt by District Deputy Guild and Past Grands Gowen, Fell and Marvin, and escorted to the Hall where Victoria Lodge was in session. The Grand Master was received with Grand Honors and warmly welcomed by the brethren. Mr Hill will visit the principal places of interest to-day and will sail for San Francisco to morrow evening. Mr Hill is the first Grand Master to visit British Columbia.

In a recent report issued by the Gazette of India the startling statement is made that the aggregate number of deaths by wild beasts throughout the provinces of Madras, Bombay, Bengal, the Nortwestern Provinces, Punjaub, Oude, Central Provinces, Courg, Hyderabad, and British Burmah, for three years, amounts to 12.554. The deaths from snake bites over the same area number 25.664; making a total of 38 218.

An independent Alaska company has been formed, which proposes to buy skins and other produce of that icy land rejected by the lessees under the Government. As the latter, however, claim the exclusive right of trade in those regions, the intruders will probably have notice to quit.

The Pacific arrived from San Francisco at 7:35 o'clock last evening and ran into Esquimalt to await daylight. She brought 30 passengers, among whom were Mr R P Rithet and Rev W H Hill, Grand Master of California Odd Fellows. She also brought a large express and mail and 320 tons of freight, and will sail for San Francisco to-morrow evening.

British Parliament.—The British Parliament will meet to day. Gladstone and D'Israeli have sent circulars to their supporters, begging them to be present at the opening as the important business of the election of a Speaker will demand their attention.

Proper.—Earl Granville refused to see a deputation of Republicans who wished to urge the British Government to use its influence to precure the substitution of civil for military courts, in the trial of Paris Communists.

During the year 1871, Wells, Fargo & Co. shipped from the Owynee mines bullion valued at $981,36275. This amount exceeds the shipment of 1870 by over $175,000.

The San Francisco *Bulletin* claims that California will produce this year 24 000,000 pounds of wool and 28,000,000 bushels of wheat.

The Cable Gone Again.—It is feared that the telegraph cable between San Juan and Lopez Islands has again given out. It was laid anew about three months since.

Seizing Logs.—The U S Inspector of Timber has seized another raft of logs, containing 200,000 feet, on Puget Sound. The logs were cut from Government lands.

The ladies moving in the most fashionable society in San Francisco are preparing for a grand leap year ball, all expenses of which will be paid by the ladies.

Duke Alexis says the dearest spot on earth to him is Niagara Falls, where his hotel bill for twenty-four hours was $1,500.

Whisky Selling.—Thomas Cameron, charged with selling whisky to Indians, confessed his guilt and was sentenced to 6 months' imprisonment with hard labor.

Off for the East.—Mr Nelson, M P, Mr Wallace, M P, Dr Tuzo and Mr Grahame, left San Francisco on the 30th January for the East by rail.

Senator Macdonald and family were at San Francisco on the 1st inst. They would probably go via Panama.

Hon P D Moore, of Washington Territory, was one of the passengers by the North Pacific yesterday.

The North Pacific, with a few passengers and a small mail, arrived from ports on Puget Sound yesterday at 3 o'clock p m.

Firing in the Streets.—Charley, a Skidigate Indian, for firing off a pistol in the public streets, was yesterday fined $10.

The Prince's Health.—On the 25th January, the Prince of Wales left his house and walked a quarter of a mile.

The Lady Lampson.—The work of discharging the cargo of this vessel commenced yesterday. The cargo is in excellent order.

The County Court will sit to day. Several heavy cases are on the docket.

Needed Well Watering.—A certain widow was one day in spring seen by the clerk of her parish crossing the church-yard with a watering-pot and a handle.

"Ah, Mistress Mctavish," said the clerk, "what's yer bu'ness wi' sic like gear as that y'are carryin?"

"Ah, weel Mr Maclachlan," replied the widow, 'I'm just goin to my gudeman's grave, I've got some hay seeds in my bundle the which I'm goin to sow upon it; and the water in the can is just to gi'e 'em a spring like!"

"The seeds winna want the watering,' rejoined the clerk; 'they'll spring finely o' themselves.'

'That may well be,' rejoined the widow; 'but ye dinna ken that my gudeman, as he lay a-deeing, just got me to make promise that I'd never marry agin till the grass had grown aboon his grave. And, as I've had a good offer made me but yestreen, ye see, I dinna like to break my promise or to be a lone widow, as ye see me!'

The minister's aid de-camp looked on the widow indeed with a mirthful expression.

"Water him well, widow,' said the clerk, "*Mactavish aye was drouthy.*'

A Wisconsin man was taken dangerously sick. He sent for his wife to come at once and care for him. Now, the wife's mother was sick, too, and she sent this dispatch to her languishing husband.—"Dear Tim: *Mother* is sick; I can't leave her. Do the best you can. If you die, send your body home."

DELAYED DISPATCHES.

London, Jan 25.—In the storm yesterday and the preceding night, the rainfall was extraordinary. The streams in the South of England overflowed their banks, and whole villages were deluged. Great damage its done to property, especially in the valley of the Severn. The river Thames is above is banks, and the town of Windsor has suffered severely. In London, the upper portion of the city on the river is flooded. The loss of property and the interruption to business is quite serious.

Cincinnati, Jan 23.—An exciting shooting affair took place at Charleston, West Virginia, last evening, under the following circumstances: During the war the lands of John Clarkson, a wealthy Virginian, were sold for taxes, and yesterday he sued for recovery. During the progress of the trial Clarkson called the defendant, U S Marshal Stock, a 'liar.' Stock then struck Clarkson, and a general melee ensued, in which seven shots were fired. The room was small, and over a dozen persons were present. Clarkson was shot four times; one wound was dangerous, being in the breast.

New York, Jan 21—A World's London letter contains a detailed plan by Scott Russell for the next step in the social movement, under which he hopes to obtain by Parliamentary legislation for every working man's family, a house for $40 per annum, food at wholesale rate, eight hours work, and technical education. The bill will be ready for presentation to Parliament early in February.

Mr Williams, a Liberal member of Parliament, has paired off with a Conservative member, in order to make a brief visit to the United States. He will visit the mines in Utah and expects to be absent two months.

New York, Jan. 29.—An alleged cable report circulated in Wall street to-day, speaking of trouble between England and Russia, arising from the reported determination of the former to oppose Russian advance in Asia. The story is undoubtedly false.

Chicago, Jan 29—A New York special says late Munich letters describe the spread of the old Catholic movement, of which Dr Dollinger is leayer in Germany, over Europe. The progress of the movement outside of Germany is rather slow, and nothwithstanding the zeal and energy of such able workers as Friedrich, Haber, Strasmayer, and others, in France it has made little headway. The Italian clergy keep aloof from it, and are silent on the subject. In Spain the prospects are better for the reformers. It is thought from revelations lately made in Austria; regarding the abuses of the confessional that that country is a good field for the Dollingerites to work in. As regards Russia, there are chances of an understanding between the Greek Church and the old Catholics.

Mexico.

San Francisco, Feb 1—A private letter from Hermosillo, Sonore, Jan 7, states that Gov Pesquira, with the Federal contingent from Sonora, had already exchanged shots with the advance of the rebels in Sinaloa, and a decisive battle was hourly expected. The case is one of the most revolting ever in our Courts. The mother is a poor hard working woman, almost insane from grief and shame.

Suicide.

A YOUNG LADY BLOWS HER BRAINS OUT.

From the Louisville Ledger.

From a gentleman who arrived in this city last night from Gosport, Ind., we learn the particulars of a most distressing case of suicide that occured near that town last Saturday night. A young and very estimable gentleman named Davie, who had been married but a short time, and whose marital relations had been of the most delightful character, received an invitation to attend a country spelling match or school that was to come off Saturday night a few miles distant from his residence. He informed his wife of the invitation, announcing to her that he would attend, inasmuch as he had many personal friends whom he would meet there.

It seems that the wife was greatly excited at this announcement; and is has since transpired that this excitement was the result of a foolish fit of jealousy, she imagining he only only desired to attend the school that he might flirt with some former young lady acquaintances. She told him that if he went she would blow her brains out, and he would find her a corpse when he returned. Mr D., however, treated her threat as a bit of badinage, not giving it a second thought. This was in consequence of the pleasant life they had so far lived together, their happiness never having been marred by an unkind word, or, as far as knew, even thought. He therefore mounted his horse and rode to the schoolhouse.

He returned about ten o'clock at night, when, upon entering his residence, he was horrified to find his wife lying in a pool of blood upon the flood, a part of her skull blown off. She had too fearfully executed her threat. The wound was inflicted with a revolver, which, from the powder marks upon her face must have held close to the forehead. The lady was the daughter of J R Dunn, Esq., of Gosport, and an intelligent woman. Her rash act has almost driven her husband to insanity! The sad affair has created a profound sorrow throughout the entire neighborhood in which the unfortunate family lived.

A Rarity.—There lives an old lady on the 2nd con. McNab named Mrs Mallard, who had attained to the age and position of a *great great grandmother*. Her daughter, Mrs Berry, is a great-grandmother, her grand-daughter, Mrs Hansen, is herself a grand-mother, and her great-grandson, Jas Hansen, is a father; so that she now is the living head and lady patriach of the fifth generation. Mrs Mallard is not only in the enjoyment of good health, but in the perfect enjoyment of every faculty. Her memory is exceedingly retentive. We saw her a few days ago walking on the road, and were astonished at the agility and alertness with which she walked along. Such a circumstance is exceedingly rare, and we venture to say that seldom has any person ever known a great great-grandmother in life, with all her numerous progeny around her. This is worthy of being noted as an instance of healthy and apparently long continued longevity in the Ottawa Valley; and the township of McNab boasts of many aged persons close on the verge of their hundred years.—Perth Courier.

A remarkable instance of the effect of fright in a dream occurred in an interior town in Wisconsin, recently. A young man, a school teacher, just married, spent an evening in reading to his wife incidents of Indian life and warfare in the Western country. Going to bed with his mind filled with the subject, he dreamed of living some of the scenes he had been reading of, during which he had lost his scalp at the hands of a red-skin, receiving thereby a terrible fright. On being awakened by the stir in the house in the morning, he found himself unable to speak, and could only communicate with the others by writing—thus relating his dream. At last accounts he had not recovered his speech.

Facts.—In a politico-economical point of view, every immigrant has a commercial value of $1500. Mark that on the back of each one of the 30 000 that found a home in Minnesota, for instance, last year, and put down $45.000,000 as the total of the wealth added to this State in that time. Add up the sum made by the 15.000 who have come this year, and then think of the figures that will be added by the multitudes of which these are only the herald and avant courier! Verily, railroads are wonderful magicians! Little vilages that last year had only fifteen to twenty houses, are growing into towns this year.—The Great West.

Valentine's Day!—This anniversary is approaching again, when we welcome these tinselled missiles, which provoke the three passions of Mirth, Anger and Love; and when we are licensed with impunity to send them with a rollicking and indiscriminate recklessness of social tastes or position. Upon this occasion we recommend mercy and prudence, having just received a new lot. Its variety and novelty is refreshing to look at, to the eyes of those who follow up that ancient custom.—T. N. Warning Words.

The strength and nervous energy of the human body ought to be increased during the winter for two reasons: In the first place, diseases of the most deadly character may be generated at this season; and secondly, it is of the utmost importance that during the cold weather months the system should be put in a condition to withstand the effects of the Spring miasma and the subsequent depressing heat of Summer. It is therefore advisable, in fact essential, to tone, regulate and invigorate the digestive and secretive organs at this period of the year, and of all the stomackichs and alteratives at present known. Hostetter's Stomach Bitters is the most powerlul, the most harmless, and the most agreeable. The temperature of winter would be in itself a glorious tonic, if it did not, unfortunately, bring with it a volume of chilling moisture and unwholesome winds, which have a bad effect on the skin and lungs These must be guarded against, or there is no security for health. The effect of a course of the Bitters is to give tone and vigor to the entire organization—the superficial muscles and nerves, as well as the internal viscera. A regular habit of body, a healthy and natural flow of bile, an active digestion, a good appetite, pure blood, and a vigorous circulation of that fluid, are among the blessings derivable from a presistant use of Hostetter's Stomach Bitters, which are not only cathartics and antiseptics prescribed in their seperate forms by physicians, but perform the threefold work of invigoration, regulation and purification, at one and the same time.

Ayer's Hair Vigor,

FOR RESTORING GRAY HAIR

TO ITS NATURAL VITALITY & COLOR

Advancing years, sickness, care, disappointment and hereditary predisposition all turn the hair gray: either of them disposes it to fall off prematurely; the effect is unsightly and unpleasant to behold. Dr. Ayer's consummate skill has produced an antidote for these deformities which has won gratitude for him from multitudes of women and men. His HAIR VIGOR sometimes reproduces lost hair, and always restores to faded and gray hair its natural color, with the gloss and freshness of youth. The comparatively few bald and gray heads that we now see, are those who have not yet discovered the virtues of AYER'S HAIR VIGOR for renewing the hair. The fresh and youthful hair we see on older heads is often the product of his art. If you are disfigured or made old, austere and ugly, by gray hair, restore its youthful color and with it your features to their original softness and agreeable expression.

As an elegant dressing for beautifying the Hair it has no superior.

ELECTRICITY IS LIFE.

PULVERMACHER'S

PATENT GALAVANIC

CHAIN BANDS BELTS

AND

Pocket Batteries

THESE REMARKABLE AND HIGHLY improved inventions render electricity perfectly self-applicable, and extremely efficacious in a mild continuous form, no shock or unpleasant sensation being experienced, whereby it becomes a true fountain of health and vigor, speedily soothing agonising pains, re-animating torpid limbs, reviving the sluggish functions of life and imparting renewed energy and vitality to constitutions enfeebled by whatever cause. Medicines and their deleterious consequences are thus entirely dispensed with. The daily increasing number of cures effected by PULVERMACHER'S MEDICO GALVANIC SYSTEM is so extensive and varied, that it forcibly points to this invention as the embryo of the universal remedy.

N. B.—The following testimony from the ELITES of the English medical faculty has been received:

"We, the undersigned, have much pleasure in testifying that Mr J L PULVERMACHER'S recent improvements in his Voltaic Batteries and Galvanic Appliances for Medical Purposes, are of great importance to scientific Medicine; and that he is entitled to the consideration and support of everyone disposed to further the advancement of real and useful progress.

Dated this 9th day of March, 1866.

Sir Wm Fergusson, Bart, F R S.

Sir J. Ranald Martin, F R C S."

PULVERMACHER'S SYSTEM is also approved of by an official report of the Academie de Medicine, Paris; Royal College of Physicians, London; and the Imperial Faculty Vienna, and its curative virtues are confirmed by thousands of private testimonials of cures effected. (See pamphlet, gratis).

These facts appeal to the good sense of every sufferer to avail himself of this scientific and curative progress, to which the inventor has devoted a lifetime of study and labour, as an ardent disciple of that great benefactor of mankind, the late illustrious electrician, MICHAEL FARADAY

PULVERMACHER'S MEDICO-GALVANIC CHAIN; are exceedingly effective without the aid of medicine, restriction of diet, or the least derangement of the patient's habits and daily occupations, in the following maladies:—
